

Is a cat the right animal for you?

- ☐ Can you be at home for a good part of the day?
- ☐ Can you afford up to 100dhs a week on cat food?
- ☐ Can you put up with the cat possibly damaging your furniture?
- ☐ Can you afford regular vaccinations and vet care?
- ☐ Can you afford to board your cat when you go on holiday or do you have a reliable person to look after your pet for you?
- ☐ Can you spend time grooming your cat each day, especially for long-haired breeds?

If you can answer a definite YES to all these questions, a cat could be the right pet for you

THE RIGHT CHOICE

Kittens look cute and cuddly but they may not be the best choice for all families.

They can be destructive.

They may need house-training.

They may be trodden on or handled roughly by young children.

They may cause elderly people to trip and fall

For people with very young children or elderly relatives an adult cat or a young adult is probably the best option.
